

Did you know these could be **symptoms** of **pancreatic cancer**?

Early diagnosis is key to survival! Know the signs and symptoms:

Unexplained weight loss

Without trying

Jaundice

Yellowing of the skin and whites of the eyes, and/or very itchy skin

Upper abdominal pain or discomfort

Which may radiate to the back

Changes in the way you poo

Pale and smelly

Indigestion

Not responding to medication

Mid-back pain or discomfort

Where a bra strap would sit and may be eased by leaning forward

Other symptoms may include:

- Loss of appetite
- Pain on eating
- Nausea and vomiting
- New-onset diabetes - not associated with weight gain
