

# Early diagnosis saves lives

## Symptoms of pancreatic cancer

Mid-back pain

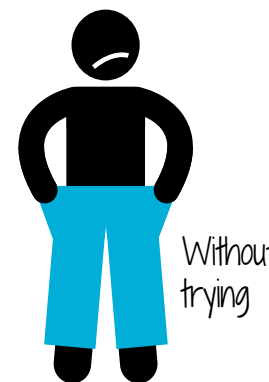

Where a bra strap would sit and may be eased by leaning forward

Changes in the way you poo

Pale and smelly

Unexplained weight loss

Without trying

Abdominal pain

Which may radiate to the back

Jaundice

Yellowing of the skin and whites of the eyes, and/or very itchy skin

Indigestion

Not responding to medication

Help us reach more people than ever before

# November is Pancreatic Cancer Awareness Month
